

With Sharkskin® Interior and Exterior Protection

Body-Gard Features

Body Panel Protection

- Prevents moisture from attacking even the most recessed, vulnerable metal body panels
- Coats the inner areas of the vehicle
- No holes are drilled for application
- Penetrates seams and crevices where rust begins

Underbody Protection

- Seals out moisture and protects the bottom of the vehicle from damage due to gravel, dirt, and road salt
- Helps provide a sound barrier for a quieter ride by dampening vibrations

Extra-Care Protection

Further protect the vehicle with our Extra-Care Protection. It includes:

- Surface Rust Protection
- Rip Tear & Burn Protection

This optional upgrade complements the standard Body-Gard Rust Protection with a 6-year coverage on new vehicles. See Registration Information for details.

Sharkskin Features

Sharkskin Interior Protection

- Helps keep upholstery looking new and clean longer
- Repels water, dirt and other liquids
- Does not alter the look and feel of the upholstery
- Resistant against bacteria and mould
- Contains no toxic chemicals

Sharkskin Exterior Protection

- Protects against weather, pollutants and oxidation
- Eliminates the need for waxing
- Keeps the surface appearance in showroom condition
- Wax, silicone and teflon free
- Treated surface makes dirt, brake dust and road grime easier to remove

Windshield Application

- Increases safety by dramatically improving visibility when driving through rain, snow and sleet
- Improves night vision by reducing glare
- Extends wiper life by reducing wiper usage
